

2018

CHRYSLER
PACIFICA

2.6 Le/100 KM (109 MPGe) CITY^{1*}

DESIGNED TO MAKE DRIVING A HYBRID SECOND NATURE FROM THE START

Eco-friendly living and efficiently driving further make sense to the environmentally conscious family. Increasing your options for less dependence on gas, the Chrysler Pacifica Hybrid offers an astounding 2.6 Le/100 km (109 MPGe) in city driving,¹ easily covering an average daily commute up to 53 km (33 miles) of electric range and a total driving range of up to 911 km (566 miles)²

Working seamlessly together, the gas and battery operations allow drivers to effortlessly gain efficiency and produce less emissions with the worry-free choice of power, designed for simplicity. The Class-Exclusive³ advanced hybrid powertrain delivers the first electric minivan without compromising space and versatility.

STAY CHARGED AND READY TO GO

Making the most of driving range may turn into a competition with yourself, as you easily monitor your driving history and real-time results on the unique Pacifica Hybrid information screens. With the capability to perform your daily highway cruising or city driving on battery power, you may rarely use the gas engine, but it's always ready to take over as needed.

A full battery charge covers a driving range up to 53 km (33 miles) on all-electric power,² while the gas engine gives peace of mind during extended trips. The ability to fully charge the battery in as little as two hours³ with the available Mopar[®] Level 2 Charger makes almost any time a convenient time to recharge for the next day.

*A note about this catalogue: all disclaimers and disclosures can be found on the back cover.

TECH-FRIENDLY CONVENIENCE

READY TO DRIVE

Though you may not hear the engine running, the moment you start the Pacifica Hybrid, the intuitive screens let you know when it's ready to drive, deliver easy-to-monitor energy output and input, and offer driving tips for maximum efficiency. The Pacifica Hybrid comes with a Uconnect® 4 multimedia system that features a Largest-in-Class⁴ 8.4-inch touchscreen with Hybrid Electric Pages that provide helpful colour-coded information about your vehicle's Power Flow, Driving History and Charging Schedule features.

REMOTE ACCESS

Stay connected to your Pacifica Hybrid from anywhere. View a Driving History report, see your vehicle's charging progress, locate a charging station and more — all from the convenience of your phone. The SiriusXM Guardian⁶ smartphone app delivers remote access to the Hybrid's sophisticated technology, making life simpler along the way. Once downloaded to your compatible smartphone, the app can be used to check the battery charge, vehicle range and estimated time to full recharge.

POWER FLOW

The first screen in the Hybrid Electric Pages app is the Power Flow screen, which shows the current power readings for functions listed below. It also allows you to view the flow of power as it returns to the vehicle systems. Power Flow paths are indicated by the arrow direction on the touchscreen.

- Engine — Displays the amount of power the engine is generating to charge the battery, or providing to the drive wheels.
- Electric — Shows the power level the battery is currently providing/absorbing. A negative kW reading indicates the vehicle battery is charging through regenerative braking.
- Climate — The amount of power the climate control system is using to maintain the current interior temperature.

DRIVING HISTORY

The second screen within the Hybrid Electric Pages app is the Driving History screen, showing the kilometres driven in both Full Electric and Hybrid modes for both the previous week and the current week.

The data is displayed in a bar graph: Electric Mode kilometres in teal and Hybrid Mode kilometres in blue help you to clearly differentiate and observe performance levels at a glance of how much of one system or the other you're using on a regular basis. Most Hybrid drivers will find that their efficiency increases as they become familiar with these tools.

CHARGING SCHEDULE

The Charging Schedule screen allows you to set when you want your vehicle to charge. To do so, press the box next to the setting "Enable Schedule" until a check mark appears in the box; from there you can set the schedule.

In addition to scheduling the charge at regular times that you're home or able to utilize a public or workplace charging station, this feature allows you to take advantage of available lower off-peak electricity rates if available. For vehicles equipped with the 4C NAV radio, the Charging Schedule can also be set using the downloaded SiriusXM Guardian⁶ app on your smartphone.

Limited interior shown with leather-faced seats and perforated inserts in Alloy with Ice Blue accent stitching

IN HARMONY WITH ITS SURROUNDINGS

7-INCH IN-CLUSTER DISPLAY CENTRE

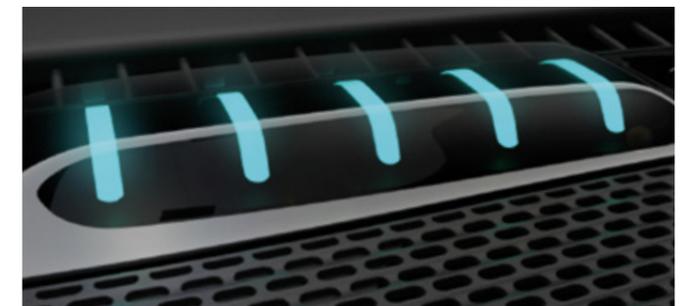

This premium display delivers crisp, configurable graphics integrated between the cluster gauges. Along with driver assist features like turn-by-turn navigation⁷ and Parallel and Perpendicular Park Assist,⁵ the unique Hybrid customizable screen is further enhanced with Electric and Hybrid power gauges, that provide information about regenerative braking in-flow, efficiency and much more.

EFFICIENCY COACH

The in-cluster display on the Pacifica Hybrid also includes a coaching feature to help optimize fuel efficiency by showing a small green light to let you know when you're driving efficiently. When your driving reaches beyond the eco-friendly range, the light turns white, so you can always be aware of your performance-to-efficiency operation.

FIVE-POINT CHARGING INDICATOR

The convenient charge level indicator, positioned on top of the dash, is visible at a glance, and from outside the vehicle so it's easy to identify the battery's charge level from a distance. Each of the five brightly coloured bars represents a 20% charge level; two illuminated bars indicate a 40% charge and so on, up to a 100% fully charged battery.

Limited shown in Granite Crystal Metallic

Available Mopar® Level 2 Charger shown

THE BEST OF BOTH WORLDS

AWARD-WINNING 3.6L PENTASTAR™ V6

When certain driving situations require it, such as accelerating quickly to merge on the highway, the Pacifica Hybrid has the power to meet the demand. The Hybrid-powered operation provides a commanding yet economical 3.6L Pentastar Variable Valve Timing (VVT) V6 engine that delivers an impressive 260 horsepower and 236 lb-ft of torque. This specially adapted Atkinson Cycle hybrid engine uses a reduced air/fuel compound, compared to that of conventional engines, for advanced fuel efficiency. It is engineered to work in tandem with the electric motor, contributing to Best-in-Class⁴ fuel economy ratings of 2.6 Le/100 km (109 MPGe) city / 3.0 Le/100 km (94 MPGe) highway.¹

ELECTRIC + GAS = POWERFUL EFFICIENCY

The heart of the Pacifica Hybrid is the 16kWh lithium-ion battery, delivering up to 53 km (33 miles) solely on zero-emissions electric power from a single charge. The hybrid powertrain typically operates on all-electric power at lower city speeds for maximum efficiency.

If more power is needed to accelerate to highway speeds, the gasoline engine is automatically engaged. As you slow the vehicle, the Hybrid's regenerative braking system and motor convert the engine to function as a generator by redirecting power to the battery to extend the electric range, as well as saving wear on the brake pads. The hybrid technology provides up to a 911-km (566-mile) total driving range² with a full fuel tank and charge.

gov.bc.ca/gov/content/transportation

INTUITIVE TRANSFER OF POWER

Pacifica Hybrid is able to switch seamlessly between electric and gas power, thanks to the Electrically Variable Transmission (EVT) featuring two electric motors — both capable of delivering power to the front wheels.

The 16kWh lithium-ion battery may be charged with a standard Level 1 (120V) home outlet, and an available Mopar Level 2 (240V) adaptor, which can restore full power in as little as two hours³ of charging. The port located above the driver's side front fender allows easy charging access after exiting the vehicle, and the capless fuel-filler is placed on the same side of the vehicle for no-guesswork convenience.

INCREASE YOUR RESOURCES THROUGH THE POWER OF SAVINGS AND CHOICE

With an electric driving range of up to 53 km (33 miles), the Hybrid is less dependent on gas, helping lower emissions for a greener planet, increasing savings at the gas pump and beyond. When you purchase a Pacifica Hybrid, you may qualify for government incentive program rebates by province. Please visit www.chrysler.ca/en/pacifichybrid/overview for more information. The battery has a fully transferable 10-Year/160,000-Kilometre Limited Warranty.⁸ [\[click to view warranty\]](#)

POWER FEATURES

- Gasoline-powered backup to Hybrid battery
- Internal combustion Atkinson Cycle on V6 engine
- System decides and activates for you which power is more efficient for the driving situation
- Regenerative Braking helps recharge the battery and helps reduce wear to brake components
- As little as two-hour³ charging with the available Mopar Level 2 Charger

- High-voltage electrically charged 16kWh lithium-ion battery
- Automatic system seamlessly transfers between battery and engine power

Hybrid Limited shown with optional equipment

THE MOST ADVANCED ENTERTAINMENT SYSTEM IN ITS CLASS⁴

INDUSTRY-LEADING REAR-SEAT ENTERTAINMENT

Transform the passenger experience with the available Class-Exclusive⁴ Uconnect[®] Theatre rear-seat entertainment system. Your passengers can watch movies, play built-in games and connect personal devices to stream content throughout the vehicle. Two 10-inch touchscreens allow second-row occupants to bring their digital lifestyle along for the ride and connect simply with available wireless, USB and HDMI device connectivity. The dual backseat screens can display separate content simultaneously, including integrated games such as checkers or tic-tac-toe, as well as the Are We There Yet? app on navigation-equipped models.

MULTIMEDIA HUB

The available Blu-ray[®]/DVD player with integrated video USB port in the first-row centre stack can be used to play movies on the two Uconnect[®] Theatre 10-inch touchscreens. Parents can mute, turn off or lock out content displayed on each screen from the first-row Largest-in-Class⁴ 8.4-inch touchscreen. Available USB charging ports in all three rows keep everyone charged and connected.

QUALITY ACOUSTICS

Built-in Active Noise Cancellation (ANC) technology subdues ambient noise to enhance cabin quietness and is standard on all models. It also allows for a premium sound quality with the six-speaker audio system, and works with available options like an Alpine[®] 13-speaker or Class-Exclusive⁴ harman/kardon[®] 20-speaker Surround Sound system to create a mobile soundstage.

7-inch full-colour customizable in-cluster display centre

8.4-INCH TOUCHSCREEN – LARGEST IN ITS CLASS⁴

STAY IN TOUCH

Remain focused on the road with your hands on the wheel as you communicate, navigate, stay entertained and easily manage your Pacifica Hybrid power and charging features with the standard Largest-in-Class⁴ 8.4-inch Uconnect[®] touchscreen.

The system displays climate and multimedia controls, and available memory features to save preferred seat, mirror and radio settings. With your compatible phone paired to the system's hands-free⁹ Bluetooth[®] technology, Voice Text Reply¹⁰ can announce and read incoming texts, and you can reply with any of the 18 preset responses such as "yes" and "I'm on my way." Siri[®] Eyes Free¹¹ allows you to make voice commands⁹ with your iPhone[®], and use Do Not Disturb to hold calls and texts or send automated replies.

HYBRID ELECTRIC PAGES

The standard Uconnect 4 multimedia system with 8.4-inch touchscreen display includes the intuitive, colour-coded Hybrid Electric Pages feature to monitor the vehicle's hybrid and electric performance. Adjust your charging schedule conveniently around your life or less expensive off-peak hours, view your power flow, driving history and more.

SIRIUSXM GUARDIAN⁶

This advanced in-vehicle connectivity offers a WiFi Hotspot^{12*} and helps when you need it most with Roadside Assistance Call and SOS Call from your touchscreen or rearview mirror button. The mobile app keeps you connected by turning your phone into your vehicle's command centre. The one-year trial subscription includes Remote Vehicle Start to start your car and unlock the doors from virtually anywhere, as well as Stolen Vehicle Assistance alerts, Send & Go, and much more.

SIRIUSXM TRAFFIC¹³/TRAVEL LINK¹³

The five-year service subscription includes real-time detailed information about traffic, construction and road closures and works in tandem with the available GPS Navigation⁷ in your vehicle. It can also display weather forecasts, fuel prices, sports scores and movie schedules.

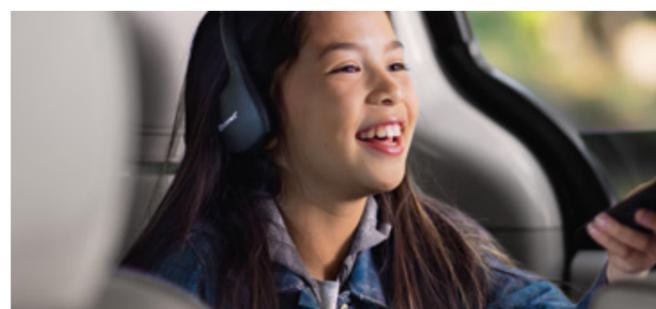

SIRIUSXM SATELLITE RADIO¹³

SiriusXM satellite radio¹³ is standard and includes a one-year subscription to a variety of music, news, sports and specialty channels. You can set up alerts of your favourite song, artist or sports team playing on another channel, and Instant Replay lets you pause, rewind and replay programs, songs and sports broadcasts.

3D NAVIGATION⁷ IMAGERY

Identifying your whereabouts is an exact science with the available Uconnect 4C NAV⁷ system's integrated navigation⁷, including 3D landmarks, city models, digital terrain maps, enhanced graphics and one-step voice destination entry.

*Late availability.

This plug-and-play capability provides a safer way to use Android[™] while in your vehicle, sharing information while you easily access the best of Google: Maps with voice-guided navigation⁷ and Play Music; place phone calls or send and receive messages and ask Google any question by voice command.⁹

The smarter, safer way to use your iPhone[®] inside your vehicle. Plug in to seamlessly integrate with Uconnect[®]. You can use the touchscreen or Siri[®] to make calls, access Apple Music, send and receive messages, get directions optimized for traffic conditions and more, while staying focused on the road.

100+ STANDARD AND AVAILABLE SAFETY AND SECURITY FEATURES

PARALLEL AND PERPENDICULAR PARK ASSIST⁵

Through a network of sensing elements on the front and rear fascias, the Pacifica can help you in your daily manoeuvres and guide you into parking spaces with the available Park-Sense[®] Rear Park Assist with Active Braking⁵ and Parallel and Perpendicular Park Assist. The sensors send out ultrasonic waves when driving at low speeds and provide visual and audible alerts of a detected obstacle's distance. Park-Sense Rear Park Assist with Active Braking can automatically apply the brakes to prevent a possible rear collision in low-speed parking situations.

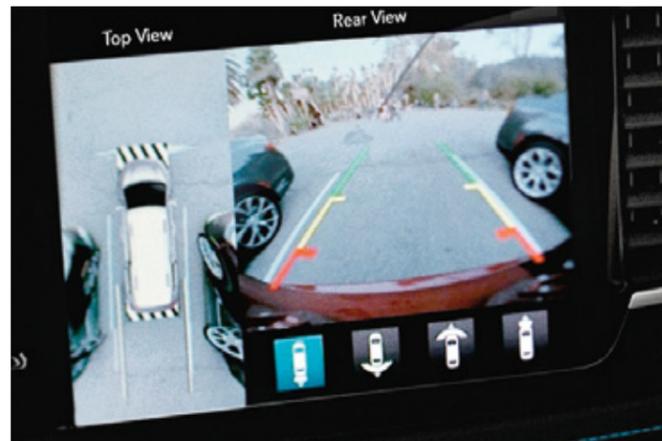

Parallel parking assistance is available on either side of the vehicle and can start searching for a parking position as soon as the driver activates the system using a dedicated button on the centre stack. Perpendicular parking assistance allows the vehicle to back itself into a suitable space. The system automatically controls steering-wheel angle, while the driver controls gear selection, brake and accelerator.

ELECTRONIC PARK BRAKE

Activated by a button located near the Rotary E-shift dial, the standard Electronic Park Brake switch eliminates the traditional pull park/emergency brake handle. It includes the additional safeguard override feature of SafeHold, which can secure the wheels if it detects the driver has exited the vehicle while it's at a standstill but not in the Park gear.⁵

SURROUND-VIEW DISPLAY

During low-speed driving situations like parking or backing out of your driveway, the available 360° Surround-View Camera⁵ delivers a new level of technology, providing a bird's-eye perspective of the vehicle and its surroundings in the available 8.4-inch touchscreen.

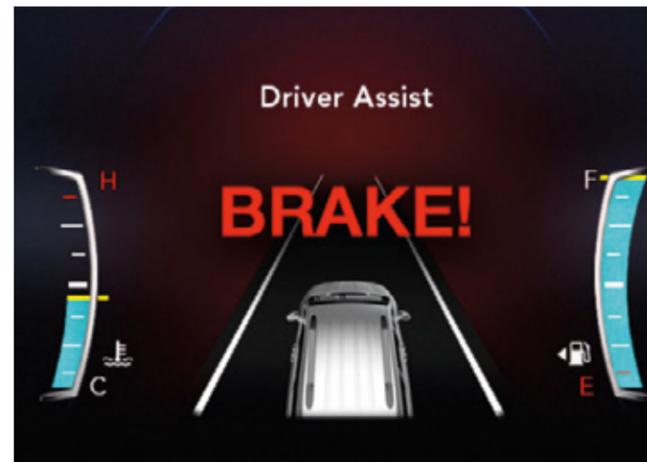

LANE DEPARTURE WARNING WITH LANE KEEP ASSIST⁵

A forward-mounted camera detects and measures the vehicle's position within a lane. If the vehicle starts unintentionally drifting out of its lane without you using the indicators, this available feature can warn you visually and through a haptic warning — a “shiver” in the steering wheel. If you do not respond to the warnings, Lane Keep Assist can help gently nudge the vehicle back into the lane by leveraging the Electric Power Steering system to apply corrective steering input.

ADAPTIVE CRUISE CONTROL WITH STOP AND GO⁵

By using radar and video sensors, this available system can automatically adjust cruising speed based on preset speed and vehicle distance settings. In certain conditions, such as stop-and-go traffic, the system is able to bring the vehicle to a complete stop without any driver intervention, then prompt the driver to press the Resume button or tap the accelerator to re-engage to safe-range speeds as traffic begins to move.

FORWARD COLLISION WARNING WITH ACTIVE BRAKING⁵

Using radar and video sensors, this available system detects whether the vehicle is approaching another vehicle or large obstacle in its path too rapidly. When an object is detected, the system can provide audible and visual warnings and can assist the driver in avoiding the incident by actively applying the brakes. The driver has the ability to adjust the sensitivity and turn brake support on or off using the Uconnect[®] radio.

BLIND-SPOT MONITORING WITH REAR CROSS-PATH DETECTION⁵

When you are driving forward, the available Blind-Spot Monitoring system continually monitors the vehicle's side blind zones using dual radar sensors. When a side blind spot is encroached, you're notified via an illuminated icon on the appropriate sideview mirror, and if the turn signal is activated, an audible notification sounds.

Rear Cross-Path Detection engages when you put your Pacifica in Reverse. Bumper-mounted sensors detect approaching vehicles and notify you in order to help prevent a potential collision. If a car approaches from either side, you hear a chime and see an illuminated icon in the sideview mirror. Use your Uconnect radio to program audible alerts.

PROTECTING WHAT MATTERS MOST

The Pacifica Hybrid doesn't compromise on interior space or available safety and security. Parking, changing lanes, driving in heavy traffic or reversing out of your driveway are all simple tasks that can be achieved with the Pacifica Hybrid. Along with keeping an eye on blind spots and the road ahead, Pacifica Hybrid offers features that automatically slow and stop the vehicle if it's too close to another, or help steer it back into your lane if you've unintentionally drifted.

SAFETYTEC™ FEATURE PACKAGES

Two package options bundle advanced safety features to enhance driver and passenger safety and security. SafetyTec Group⁵ includes: Park-Sense® Rear Park Assist with Active Braking and Blind-Spot Monitoring with Rear Cross-Path Detection. The Advanced SafetyTec Group's active safety systems include Forward Collision Warning with Active Braking, Adaptive Cruise Control with Stop and Go, Lane Departure Warning with Lane Keep Assist, and more. See page 25 for package details.

PARKVIEW® REAR BACK-UP CAMERA⁵

When driving in Reverse, the ParkView system's back-up camera perspective is displayed in the 8.4-inch Uconnect® touchscreen. Standard on all models, it includes selectable static or dynamic grid lines, which adjust to the direction the steering wheel is turned. The wide-angle view of what is immediately behind your vehicle allows you to better access a clear path for backing out of parking spots.

ADVANCED LIGHTING TECHNOLOGY

Better visibility equals safer driving. Pacifica's standard automatic quad-halogen projector headlamps and premium fog lamps provide more controlled illumination for increased visibility. LED Daytime Running Lamps provide enhanced illumination and unmistakable road presence, while standard LED taillamps produce a distinctive and highly refined illuminated halo. Available Auto High-Beam Headlamp Control adjusts brightness based on ambient light and oncoming traffic.

8 STANDARD AIR BAGS¹⁵

Every model gives the peace of mind of eight air bags, including front multistage air bags with adaptive venting technology, side-curtain air bags, driver and front-passenger inflatable knee bolster air bags, and front-seat-mounted side-impact air bags. The front air bags are able to open at varying levels of inflation, based on occupant size and the severity of impact. Side air bag inflatable curtains extend over both front and rear seating rows.

AWARD-WINNING INTERIOR

NAMED ONE OF *WARDS* 10-BEST INTERIORS

This no-compromises, Award-Winning interior mixes sculpted design, crafted details and tech features to impress families and drivers alike. Premium leather-faced seating features Best-in-Class⁴ first-row legroom while its ergonomic design bolsters body contours. The 12-way power adjustable driver seat, including four-way power lumbar support, customizes your position. Within reach are the available Largest-in-Class⁴ 8.4-inch touchscreen with a seamless, flush-mounted screen surface and the standard Rotary E-shift dial. And as a fitting touch, Keyless Enter 'n Go™ with proximity entry and push-button start gives you easy access to the luxury that awaits.

JUST RIGHT, EVERY TIME

When temperatures outside are less than comfortable, the Pacifica Hybrid cabin lets you take it in stride with premium features offered like heated and ventilated front seats. The available heated steering wheel delivers a single layer of warmth and can be operated using climate controls on the Uconnect® touchscreen, while the standard tri-zone automatic temperature control includes a rear-seat control panel. With available remote start, the heated steering wheel and heated or ventilated front seats, can be programmed to come on automatically.

TRI-PANE PANORAMIC SUNROOF

Passengers will appreciate the overhead views with the light-infused Segment-First⁴ available Tri-Pane Panoramic Sunroof with third-row fixed glass and power dual-pane, first- and second-row sunroof. The sunroof features deep-tinted glass and a power sunshade for the front portion, as well as a manual sunshade for the fixed rear glass.

Limited interior shown with Nappa leather-faced seats and perforated inserts in Alloy with Black accent piping and Ice Blue accent stitching

Properly secure all cargo

DIVIDED ATTENTION FOR PRECIOUS CARGO

FORM AND FUNCTION AT THE TOP OF THEIR GAME

The Pacifica Hybrid includes seating for seven with easily removable second-row Captain's Chairs and third-row Stow 'n Go® fold-in-floor seating and storage for an expansive, rear cargo volume. Occupants in all three rows will notice the abundant shoulder, leg- and headroom for a relaxing, comfortable ride. The available hands-free power liftgate and sliding side doors give owners the freedom to open the vehicle with a key-fob press, or a simple wave of the foot for the ultimate in convenience.

VERSATILE STORAGE ALONG WITH SEATING FOR SEVEN

Without compromising space for efficiency, the Pacifica Hybrid delivers seating for seven and a multitude of seating and storage configurations to meet the needs of your busy life on any given day. The easy-to-remove second-row Captain's Chairs give occupants plenty of personal space while seated, as well as to move about when parked. With a fold-in-floor third-row seat and second-row seats removed, the flat cargo space can fit a stack of 4- x 8-ft sheets of plywood. Having the ability to change configurations as readily as needed, with all the space of a minivan, is what the no-compromises Pacifica Hybrid is all about.

FOLD-IN-FLOOR THIRD-ROW SEATS

The standard third-row fold-in-floor 60/40 split-bench seat stows directly into the floor. With second-row seats removed and third-row seats stowed, 3,979 L (140.5 cu ft) of space means loading up is as easy as loading in.

FRONT AND CENTRE

The Pacifica Hybrid offers centre consoles that provide clever functionality, storage and organization for all of your gear. All versions of the available centre consoles offer four cup holders, including two for the front row and two for the second row. An additional open, forward bin, inset into the floor, is deep and wide enough to hold a grocery bag or purse. Also included are connections for 12-volt and USB charging, lined storage surfaces, and a stylish tambour door on models equipped with the Super Console.

EASY-ENTRY SLIDING SECOND-ROW SEATS

It is quite handy for helping to get everyone on board smoothly and quickly. The second-row seats roll forward so the headrest meets the front-seat headrest. This upward and forward sliding movement allows third-row passengers to step into the vehicle without having to crawl over the second row.

GO CONFIGURE

Versatility is virtually endless with the industry's most innovative passenger and cargo vehicle.⁴ The seating systems on Pacifica Hybrid allow you to remove the second-row seats, and to fold and stow third-row seats enabling you to go from seating up to seven to seating two passengers, with any combination in between.

Tailgate offers easy access to rear cargo area. Properly secure all cargo.

Properly secure all cargo

 Easy access cargo loading and capacity

GENERATION US

SEGMENT-EXCLUSIVE⁴ HANDS-FREE POWER SLIDING DOORS AND LIFTGATE

A single kick motion under the hands-free dual sliding doors or liftgate opens the vehicle when the key fob is with you. Whether you're carrying packages or a sleeping baby, loading in has never been smoother.

KEYLESS ENTER 'N GO™

With this standard passive entry system, you're able to open doors as well as start the vehicle with a keyless, push-button ignition via a personalized fob. With the fob in a pocket or purse when you approach the locked vehicle, simply pull the door handle or rear liftgate latch to gain access. The power sliding doors and rear liftgate can also be opened with the touch of a button.

HAND OVER THE KEYS WITH CONFIDENCE

Ideal for families with new drivers, the available KeySense programmable key fob helps promote safe driving habits and limit distractions. Using a four-digit PIN programmed through the Uconnect® touchscreen, the KeySense fob can place limits on vehicle speed and audio volume, and allow blocking of select SiriusXM¹³ channels. KeySense will also mute the audio when front seat belts are not buckled and prevent disabling of available active safety systems.

Energide Fuel Consumption Ratings L/100 km (MPGe — imperial gallon) (city/highway/combined)		
2.6 (109) / 3.0 (94) / 2.8 (101)		

Based on Energide fuel consumption ratings. L/100 km is an equivalent measure of gasoline fuel consumption for electric energy consumed by Plug-in Hybrid Electric vehicles (PHEV) operating in electric mode. Miles per gallon equivalent (MPGe) ratings based on imperial gallon. Government of Canada test methods used. Your actual fuel consumption will vary based on driving habits and other factors. For Energide information please visit the government of Canada website www.vehicles.nrcan.gc.ca

Energide Fuel Consumption Ratings L/100 km (MPG — imperial gallon) (city/highway/combined)		
7.3 (39) / 7.2 (39) / 7.3 (39)		

Based on Energide fuel consumption ratings. Government of Canada test methods used. Your actual fuel consumption will vary based on driving habits and other factors. For Energide information please visit the government of Canada website www.vehicles.nrcan.gc.ca

DISCLAIMERS: (1) Based on *EnerGuide* fuel consumption ratings for minivans in the *WardsAuto* Small Van segment. 2.8 L/100 km (101 MPGe) highway. 2017 Chrysler Pacifica Hybrid with 3.6L Pentastar VVT V6 Hybrid engine and eFlite Electrically Variable Transmission. L/100 km is an equivalent measure of gasoline fuel consumption for electric energy consumed by Plug-in Hybrid Electric Vehicles (PHEV) operating in electric mode. Miles per gallon equivalent (MPGe) ratings based on imperial gallon. Government of Canada test methods used. Your actual fuel consumption will vary based on driving habits and other factors. (2) Electric range based on *EnerGuide* combined fuel consumption ratings, full battery charge and hybrid mode. Driving range based on *EnerGuide* combined fuel consumption ratings, fuel tank capacity, full battery charge, and hybrid mode. Your actual driving range will vary based on driving habits and other factors. (3) Requires purchase and professional installation. See Chrysler retailer for details. (4) Based on the latest available competitive information for minivans in the *WardsAuto* Small Van segment. Excludes other vehicles designed and manufactured by FCA US LLC. (5) This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of their surroundings and be prepared to take corrective action to avoid collisions. (6) All SiriusXM Guardian-equipped vehicles come with a 12-month trial effective on the date of purchase or lease of a new vehicle. Enrollment in the trial is required to receive service. Upon expiration of the trial period, purchase of a subscription is required to continue SiriusXM Guardian. Services can only be used where cellular coverage is available. See Uconnect and SiriusXM Guardian Terms of Service for complete service limitations. (7) Never program while driving. GPS mapping and available 3D navigation may not be detailed or available in all areas or reflect current road regulations. (8) See your retailer for complete details and copy of the warranty. (9) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth-compatible phone. (10) Preset voice to text messaging and incoming text message reading requires a MAP-enabled phone. (11) Siri Eyes Free requires an iPhone equipped with Siri. Certain features not available while the vehicle is in motion. iPhone must be within active cellular range. Customer's existing iPhone data rates apply to Internet-supported features. (12) WiFi hotspot available through third-party subscription. Requires Internet-enabled mobile device. See retailer for details. This feature is not intended for use by the driver when the vehicle is in motion. Always drive carefully. (13) Requires SiriusXM radio subscriptions governed by SIRIUS terms and conditions available at siriusxm.ca. (14) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice controls, when it is safe to do so. Apple CarPlay requires a compatible iPhone connected via USB cable to the Uconnect system. Android Auto requires the Android Auto app on Google Play and an Android-compatible smartphone running Android 5.0 Lollipop or higher. Data plan rates may apply. (15) The Advanced Front Air Bags in this vehicle are certified to the federal regulations for Advanced Air Bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. (16) No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. (17) Not compatible with all garage door openers.
