CHRYSLER 300

2019
A CULTURAL REVOLUTION
OF CLASSIC DESIGN & PERFORMANCE

ENDURING ELOQUENCE AND PERFORMANCE
Providing advanced connectivity and safety technologies confirms this icon is built for a modern lifestyle. It assures a perfect balance of power, efficiency and convenience to the lasting beauty of the classic, bold shape and dynamic performance even standing still. Premium engineering offers the most technologically advanced all-wheel-drive (AWD) system in its class, available on all V6 models, along with Best-in-Class AWD fuel efficiency.

THE FORMULA FOR FIRST PLACE
Known widely for its commanding characteristics, the Chrysler 300 is ready to perform with Canada’s Best-Selling Engine—the standard 3.6L Pentastar Variable Valve Timing (VVT) V6, and Class-Exclusive® TorqueFlite® 8-speed automatic transmission. Furthermore, the available 5.7L HEMI® V8 offers surprising power with the efficiency of a much smaller engine thanks to its FuelSaver Multi-Displacement System.

*All disclaimers and disclosures can be found on the back cover. †Based on 2018 EnerGuide ratings.
WORLD-CLASS COMFORT
Whether sharing your commute, making 300 a family car or bringing friends on excursions, the Best-in-Class passenger volume with seating for five gives drivers and passengers plenty of space of their own. Front seats are available heated and ventilated for premium comfort. Rear-seat occupants will enjoy amenities like climate control outlets and available heated seats, as well as access to USB ports and ergonomically designed seats. The 60/40 split-folding rear bench seat offers versatility for travel and those weekend shopping hauls.

AUTOMATIC CONVENIENCE
The available Remote Start System allows the driver’s heated seat and the heated steering wheel to automatically activate based on outdoor temperature. Driver conveniences, like standard Keyless Enter ‘N Go™ with proximity entry and push-button start and the smooth, automatic gear selection of the Class-Exclusive electronic Rotary E-shift, are nearly effortless.

EXCLUSIVE QUARTERS
The Award-Winning 300C is a study in exquisite interior craftsmanship. Drivers and passengers will settle into the comfort of premium quilted Nappa leather-faced seats, heated and ventilated front seats and heated rear seats. The rich interior’s matte-finish Mocha real-wood accents offer visual warmth to the luxurious craftsmanship. A heated two-tone leather-wrapped steering wheel fits your grip like a custom glove. Adorning touchpoints with an available leather-wrapped dash, door bolsters and centre console, along with the ultimate convenience of Class-Exclusive heated and cooled front cup holders, make your cabin experience first-rate every time.

THE MOST LUXURIOUS VEHICLE IN ITS CLASS

300C QUILTED DOOR BOLSTERS

300C HEATED/COOLED CUP HOLDERS

300C WITH REAL-WOOD TRIM AND AVAILABLE LEATHER WRAPPED DASH

Apple CarPlay shown on touchscreen above.
The standard 3.6L Pentastar™ V6 yields a Best-in-Class 3 V6 rear-wheel-drive (RWD) fuel efficiency rating of 7.8 L/100 km (36 mpg) highway* while producing a robust 292 hp and 260 lb-ft of torque (300 hp and 264 lb-ft on 300S). All-wheel-drive (AWD) models benefit from an active transfer case with front-axle disconnect, helping to make it the most technologically advanced AWD system in its class. 1 Achieving a Best-in-Class 3 AWD fuel efficiency rating of 8.7 L/100 km (32 mpg) highway, * the system seamlessly transfers from RWD to AWD as needed, returning to RWD when driving conditions warrant to maximize fuel economy.

LEGENDARY 5.7L HEMI® VVT V8 WITH FUELSAVER MULTIDISPLACEMENT SYSTEM (MDS)

Canada’s Best-Selling V8, the available 5.7L HEMI VVT V8 with FuelSaver MDS, delivers an impressive combination of V8 horsepower and a remarkable fuel efficiency rating of 9.4 L/100 km (30 mpg) highway. * The engine is optimized by the Class-Exclusive 1 TorqueFlite® 8-speed automatic transmission. FuelSaver MDS technology seamlessly alternates between four-cylinder mode — when less power is needed — and all eight cylinders when required. The result with all 8 cylinders activated is acceleration that meets your demands with 363 hp and a surprising punch of 394 lb-ft of torque.

*Based on 2018 EnerGuide ratings. See page 19 for full details.

THE SPORT OF DRIVING

Sport mode amplifies the ride and handling experience on 300S and 300C models by selecting the S gear on the Rotary E-shift dial. It enables more aggressive engine and transmission response, increased accelerator-pedal engagement, manual shifting controlled by the steering-wheel-mounted paddle shifters, and Sport-tuned Electric Power Steering (EPS) for enhanced handling. Sport mode can also be activated by the Sport button on the centre stack.

OPEN AND AIRY

An available dual-pane panoramic sunroof, which extends to the backseat, offers a skylight vibe, while the available power backlight sunshade blocks any unwanted direct sunlight from overhead.

CLASS-EXCLUSIVE TORQUEFLITE® 8-SPEED AUTOMATIC TRANSMISSION

The standard TorqueFlite 8-speed automatic transmission provides World-Class shift quality, outstanding fuel efficiency and commanding performance thanks to a wide gear-ratio spread. A low first gear ensures quick takeoff, while close fifth- through eighth-gear ratios deliver smooth shifting and a lower cruising RPM for refined performance and optimal fuel economy.
Equipping the 300S with the forceful 5.7L HEMI® VVT V8 engine makes its strut more than surface. The performance mates to the S Model Appearance Package, also available on V6 models, including body-colour rear spoiler and fascia accent, sculpted side sills, lower grille close-out panels and premium LED fog lamps, boosting the road-hugging style.

SCENE-MAKER
Black or Black/Smoke two-tone Nappa leather-faced performance seats contrasted with Light Diesel stitching are the marque of the 300S interior style. The leather-wrapped steering wheel with paddle shifters and accent stitching further reveal this model’s performance attributes. Drivers will be inspired to switch to Sport mode and turn up the tunes on the available 9-speaker Alpine® Sound System with trunk-mounted subwoofer and Surround Sound.

AN ANODIZED APPROACH
The distinctive finishes available on the 300S Alloy Edition Package offer an altering combination of warm and cool hues and special metalworks styling. The exterior features Dark Bronze upper and lower grille surrounds, Dark Bronze aluminum wheels, a Liquid Titanium Chrome Chrysler wing badge, Dark Bronze badging and Titanium-finish exhaust tips. The interior mixes Black Nappa leather with Caramel stitched surfaces and Titanium-finish accents for a heightened dose of polish.

ON THE BEAM OF BRILLIANCE
The 300S adds unique Black bezels to the headlamps and taillamps, along with LED fog lamps and a Gloss Black daylight-opening (DLO) surround moulding, presenting an illuminated attitude. The available High Intensity Discharge (HID) headlamps and Auto High-Beam Headlamp Control automatically adjust to optimize the driver’s view of the road ahead.

PERFORMANCE APPEARANCE
The unequivocal 300S exterior demeanour displays a Black Chrome surround with the Gloss Black “S” grille, a Black Chrome lower front-deck accent strip, 20-inch Black Noise aluminum wheels on rear-wheel-drive (RWD) models and an available Black roof to make a bold statement.

THE WORLD IN YOUR EYES WITH UCONNECT

Stay entertained and connected while focused on the road with the expansive 8.4-inch touchscreen media hub. The standard Uconnect 4C multimedia centre displays climate and multimedia controls and radio settings. Choose your top go-to selections with the standard Drag-and-Drop Menu Bar to keep your favourite Uconnect services on the main screen.

HANDS-FREE COMMUNICATION

With your compatible phone paired to the Uconnect system, Voice Text Reply\(^7\) can announce and read incoming texts. Siri® Eyes Free\(^9\) allows you to make voice commands with your iPhone 4s or later, and Do Not Disturb can route incoming calls to voicemail and suppress texts or send automated replies, keeping your hands on the wheel and eyes on the road.

3D NAVIGATION\(^{10}\) IMAGERY

Identifying your whereabouts is an exact science with the Uconnect 4C NAV\(^{10}\) multimedia centre’s integrated navigation, including 3D landmarks, city models, digital terrain maps, enhanced graphics and one-step voice destination entry. Available.

The advanced standard in-vehicle SiriusXM Guardian\(^{11}\) connectivity provides help when you need it most with Roadside Assistance Call and SOS Call from your touchscreen or rearview mirror button. The Uconnect mobile app helps to keep you connected by turning your phone into your vehicle’s command centre. The one-year trial subscription includes Remote Vehicle Start\(^{12}\) to start your car and the ability to lock or unlock the doors from virtually anywhere, as well as Stolen Vehicle Assistance alerts, Send & Go and much more.

SiriusXM satellite radio\(^{13}\) with one-year subscription is standard and includes over 120 music, news, sports and specialty channels. It also allows you to receive alerts when your favourite song, artist or team is playing on another channel. Instant Replay lets you pause and rewind programs, songs and broadcasts. Tune Start ensures you never miss a beat by starting songs from the beginning when switching between preset channels.

YOUR PERSONAL HOTSPOT\(^{15}\)

Available Uconnect 4G LTE Wi-Fi makes securing the perfect location to get online simple with a built-in hotspot\(^{15}\) that connects to your personal Wi-Fi account. With a trusted nationwide network, you’re always connected for up to eight devices — within 15 metres of your vehicle. A three-month trial by AT&T is included on all new 2019 Chrysler 300 models.

SURROUND SOUND

The Harman Kardon\(^{®}\) Premium Audio System, available on 300 Limited and 300C, gives a powerful and perfectly tuned audio experience. The 19-speaker multichannel Surround Sound immerses you and your passengers in optimum music playback realism.
ALL-SEASON HANDLING — BEST-IN-CLASS ADVANCED ALL-WHEEL DRIVE (AWD)

Available on all 3.6L V6 engine models, the AWD system automatically engages based on driving conditions. It activates when wheel-slip is detected, wipers are activated, Sport mode is engaged or the steering wheel-mounted paddle shifters are activated. This advanced AWD system also activates when the outside temperature dips below approximately 4 °C (40 °F) or when road slope significantly changes. The system’s design provides a seamless transition between rear-wheel drive and AWD, resulting in optimum all-weather performance while delivering Best-in-Class AWD fuel economy.†

ACTIVE SAFETY AND TECHNOLOGY FEATURES WITH AVAILABLE SAFETYTEC™ PACKAGES

Activated as needed, innovative advanced safety features are part of the available SafetyTec packages, including technology capabilities like Adaptive Cruise Control with Stop,† Forward Collision Warning with Active Braking, Blind-Spot Monitoring with Rear Cross-Path Detection, Lane Departure Warning with Lane Keep Assist, and Park-Sense® Front and Rear Park Assist. These protective responses are guided by the principles of automatic intelligence to automatically assist and alert the driver to prevent a potential collision.

ADAPTIVE CRUISE CONTROL (ACC) WITH STOP

Utilizing radar and video sensors, this available feature identifies vehicles in the forward path and maintains a safe, driver-selectable distance. Under certain traffic conditions, ACC with Stop has the ability to bring the vehicle to a full stop without driver intervention. After bringing the vehicle to a stop, the system will hold the brakes for two seconds before releasing, which requires the driver to take control and manually apply the brakes if a longer stop is required.

REACTIVE FRONT HEAD RESTRAINTS

The reactive front head restraints automatically move forward and upward in the event of a rear-end collision to decrease the space between the head restraint and the occupant’s head, helping to reduce the chance of injury.

LANE DEPARTURE WARNING (LDW) WITH LANE KEEP ASSIST

With a forward-facing camera mounted inside the rearview mirror, this available system can gauge the vehicle’s position and movement between the road lines. If the LDW system detects the vehicle drifting out of its lane without turn signal activation, the driver is warned through a slight nudge in the steering wheel. If the drift is not manually corrected, the Electric Power Steering (EPS) system can realign the vehicle to its correct lane position.

ELECTRONIC STABILITY CONTROL (ESC)

In adverse conditions, ESC and Brake Assist work with an All-Speed Traction Control System to help maintain vehicle stability, limit oversteer or understeer and selectively apply brake force when needed.

Based on 2018 EnerGuide ratings.
EQUIPPED FOR SAFEKEEPING

BLIND-SPOT MONITORING (BSM)** WITH REAR CROSS-PATH DETECTION**
Continually monitoring the vehicle’s side blind spots using radar sensors when driving forward, the available BSM** system alerts you of detected objects. An indicator illuminates in the appropriate sideview mirror, and if the turn signal is activated, an audible notification sounds. When in Reverse, Rear Cross-Path Detection** automatically monitors for objects and vehicles in perpendicular relationships to the vehicle and is ideal when backing out of tight parking spaces.

ADVANCED BRAKE ASSIST
Automatically increasing brake force, the available Advanced Brake Assist feature ensures the shortest possible stopping distance in emergency braking situations. This system works with Forward Collision Warning** using both camera and radar inputs.

ADVANCED LIGHTING TECHNOLOGY
Automatic bi-functional halogen projector headlamps feature integrated LED daytime running lamps (DRLs) that form a “C” shape for a signature road presence. The available Bi-xenon High Intensity Discharge (HID) headlamps feature adaptive forward lighting to expand road-curve sight and automatic levelling to keep the headlamps aimed at the road up to 15 degrees of slope up or down, helping to illuminate the path ahead.

FORWARD COLLISION WARNING (FCW) WITH ACTIVE BRAKING**
Using radar and video sensors, this available system detects whether the vehicle is approaching another vehicle or large obstacle too rapidly. The system will warn the driver of a potential collision risk via an audible chime and visual alert in the cluster display and can assist in avoiding the incident by actively applying the brakes. The driver has the ability to adjust the sensitivity and turn brake support on or off.

PARKVIEW REAR BACK-UP CAMERA WITH DYNAMIC GRID LINES**
This standard system automatically displays a visual reference on the Uconnect screen of what is behind your vehicle when in Reverse. When you turn the steering wheel manoeuvring into or out of parking spaces, driveways or narrow areas, dynamic grid lines adjust to the angle to assist you.
INTERIOR AMENITIES

- Power windows, front 1-touch up-and-down
- Auto-dimming rearview mirror
- Leather-wrapped steering wheel with mounted audio and cruise controls
- Illuminated rear assist handles
- Dual remote USB ports for charging
- Illuminated vanity mirrors
- 8.4-inch touchscreen and 6 speakers
- Apple CarPlay and Android Auto™
- 4G LTE Wi-Fi hotspot capable
- Hands-free communication

SAFETY & SECURITY

- 4-wheel disc brakes with Brake Assist and Ready Brake Braking System
- 2 air bags
- Anti-lock braking system (ABS)
- Power steering
- Electronic stability control (ESC)
- Hill Start Assist
- Electronic Roll Mitigation
- Trailer Towing Control and All-Speed
- Traction Control
- Kerbside Entry: Go! with proximity entry and push-button start
- ParkView Rear Back-Up Camera
- Reactive front headrests
- Smart Key
- Security
- Engine immobilizer
- Tire pressure monitoring display

EXTERIOR FEATURES

- Automatic bi-functional projector headlamps with front fog lamps
- 5.7L HEMI® VVT V8 with TorqueFlite 8-speed automatic transmission
- Black grille with gloss black surround
- Blacked-out taillamps
- Blacked-out wheels
- Adaptive Bi-xenon High Intensity Discharge (HID) headlamps
- Automatic headlamp levelling system
- Adaptive Bi-xenon High Intensity Discharge (HID) headlamps
- Automatic bi-functional projector headlamps
- Electronic stability control (ESC)
- Hill Start Assist
- Electronic Roll Mitigation
- Trailer Towing Control and All-Speed
- Traction Control
- Kerbside Entry: Go! with proximity entry and push-button start
- ParkView Rear Back-Up Camera
- Reactive front headrests
- Smart Key
- Security
- Engine immobilizer
- Tire pressure monitoring display

OPTIONAL EQUIPMENT

- 20-inch Polished Aluminum Wheels (RWD only)
- Alpine Audio Group
- Cargo Net
- Dual-Pane Panoramic Sunroof
- Mopar® Wireless Phone-Charging Pad Safety T
- Touring Group
- Uconnect 4C NAV Multimedia Centre with 8.4-inch Touchscreen

- 17-inch Fine Silver alloy wheels Standard on 300 touring RWD
- 18-inch polished aluminum Available on 300 touring RWD and 300 Limited AWD
- 19-inch polished aluminum Standard on 300 touring RWD and 300 Limited AWD
- 20-inch Black Noise alloy wheels Standard on 300S AWD
- 20-inch Dark Bronze alloy wheels Standard on 300S Limited
- 20-inch polished aluminium Satin finish Standard on 300C
